

# PROGRESS REPORT

## FOR 4/2

Chi Chen

# OUTLINE

- Write the chimpcheck script to trigger the previous lines
- Try to trigger the lines which was unsolved last time
- Summarize the action we will use in NextCloud

# PROBLEMS I MEET

- Reading code in App
  - It's kind of hard for me to reading into the code in Android, but it is just because I am not familiar with Android I guess.
- Can't find the Button in App
  - This time, for trigger line in “datamodel/SyncedFolderProvider.java”. I think I find the button to trigger that line, but I couldn't find that button in app, I'll ask Peilun for help.

# HOW I TRIGGER THE SPECIFIC LINE

- Details are in this link, I create a page for recording how I go through all of those.
- I tried to list how I trigger that line with more detail this time, and I look into code and put more log for help.
