# PROGRESS REPORT
FOR 3/12

Chi Chen

OUTLINE

- Focus on NextCloud app and try to trigger line 574, 535, 523(From Tom), 252(From Chance) and 168(From Evan).

- Successfully trigger line 574, 535, 252 and 168 already.

- Still working on triggering line 523 (I can trigger the method include line 168, but struggling to trigger exactly line 523).

PROBLEMS I MEET

- Connection problems in NextCloud
  - I found out the reason that I couldn't demo last week. NextCloud have some problems about internet connection, some times I just suddenly can't connect to that app's server at school, but this problem never happened in my place.

- Insufficient of knowledge for android code
  - The reason why I can't trigger line 523 is that I don't know what is the role of "Sparse Boolean Array Parcelable". If you want to trigger line 523, you need to make sure when you enter that method, you have "Sparse Boolean Array Parcelable" in app's state already.

HOW I TRIGGER THE SPECIFIC LINE

- Details are in this link, I create a page for recording how I go through all of those.

- https://github.com/Azurisky/FixrMeetingProgress/wiki/How-to-trigger-specific-line-in-NextCloud
